
Haris Kamran

Full Stack Developer & CTO

Portfolio: <https://hariskamran.dev>

Location: Pakistan | **Timezone Overlap:** 4 hrs (PST/EST)

Experience: 9+ years

Status: Ready to start immediately

GitHub: <https://github.com/hariskamran>

Professional Summary

Experienced Full Stack Developer and CTO with 9+ years of expertise in building scalable web applications, AI-powered systems, and Web3 solutions. Proven track record of leading development teams, architecting enterprise solutions, and delivering complex projects from conception to deployment. Specializes in modern JavaScript frameworks, AI/ML integration, blockchain development, and mobile applications.

Technical Skills

Programming Languages

- JavaScript, TypeScript, Python, Java, PHP, C++, HTML/CSS, SQL

Frontend Development

- React, Next.js, Angular, Vue.js, React Native
- Tailwind CSS, HTML5, CSS3, Responsive Design

Backend Development

- Node.js, Express.js, Nest.js, Laravel, Django, Django REST Framework
- RESTful APIs, GraphQL, WebSocket

Databases & Cloud

- PostgreSQL, MySQL, Firebase, MongoDB
- Google Cloud Platform, Docker, Git
- Cloud Security, DevOps

Specialized Technologies

- **AI & Machine Learning:** GPT, LLMs, OpenAI, LangChain, NLP, Chatbots
 - **Web3 & Blockchain:** Smart Contracts, Solidity, DeFi, Liquidity Pools
 - **Mobile Development:** Android, React Native, Cross-platform development
 - **CMS & E-commerce:** WordPress, Custom CMS solutions
-

Professional Experience

CTO - MultiDevs (July 2024 - Present)

- Leading development of AI-powered calling infrastructure and Web3 innovations
- Managing technical strategy and development teams
- Architecting scalable solutions for enterprise clients
- Overseeing multiple high-priority client projects

Key Projects:

- **RingAssist.io** - AI calling infrastructure with CRM integration
- **MultiDex** - AI-powered Web3 exchange with custom tokens
- **Echelon Profile** - Web3 gaming identity system for parallel.life
- **Swank.pk** - Two-sided salon booking platform

Full Stack Developer - Data Meister K.K. (March 2023 - July 2024)

- Developed enterprise AI chatbot systems for major clients including BMW
- Built embeddable chatbot solutions and management dashboards
- Implemented NLP-powered legal assistant systems
- Created cost optimization algorithms for AI system management

Backend Developer - Yotta (June 2022 - September 2022)

Project: <https://yottamgt.com>

- Developed Laravel backend APIs with comprehensive authentication
- Built statistical analysis modules and admin dashboards
- Created REST APIs for mobile application coordination

Full Stack Developer - Arqab (February 2017 - February 2022)

- Built complete cab service ecosystem from scratch
- Developed multi-platform applications (web, Android, iOS)
- Implemented real-time tracking and payment systems
- Managed database architecture and cloud infrastructure

Software Developer - Nut and Bolt (March 2019 - April 2020)

- Created Android applications with Firebase integration
- Implemented automation solutions with Google Cloud Platform
- Developed real-time worker-customer coordination systems

Featured Projects

AI & Machine Learning Projects

RingAssist.io - AI Calling Infrastructure

Live: <https://ringassist.io>

- Complete voice platform with AI call handling and CRM integrations
- Post-call analysis and automated workflows
- Advanced call routing and intelligent response systems
- **Stack:** Nest.js, Next.js, PostgreSQL, AI APIs

Law Firm Chatbot - Japanese Legal Assistant

Live: <https://datameister.co.jp/chatbot/start-a-business/>

- NLP-based GPT chatbot for business startup guidance
- Vector database integration for legal document processing
- Multi-language support (Japanese/English)
- **Stack:** GPT-3.5, LangChain, Vector DB, React

Embeddable Chatbot Widget

NPM Package:

<https://github.com/users/hariskamran/packages/npm/package/meistery-chatbot>

- React-based widget for cross-site chatbot deployment
- Easy installation and behavior monitoring
- **Stack:** React, NPM Package, JavaScript

Web3 & Blockchain Projects

MultiDex - AI-Powered Web3 Exchange

Live: <https://multidevs.com/multidex>

- Custom token with liquidity pool management
- Agentic AI interface for trading assistance
- **Holesky Testnet Tokens:**
 - Arrow Token:
<https://holesky.etherscan.io/token/0x57e936fdca4a733f53dcf6a1b107168419e54ebf>

- Multi Token:
<https://holesky.etherscan.io/token/0x5f60f146d0e205ed8e55d7f5bfa6fa423fd966e8>
- Liquidity Pool:
<https://holesky.etherscan.io/address/0x56B1D7bFDA6F901eEb7f96410e519A4B36B0A43e>
- **MainNet Token:**
<https://etherscan.io/token/0x6f9d6aab678a7952616aaad7d8932965e63de1d7>

Echelon Profile - Web3 Gaming Identity

Live: <https://profile.echelon.io>

- Central profile system for parallel.life gaming platform
- Identity and profile management for Web3 gaming
- Pixel-perfect UI delivered ahead of schedule

Mobile & Web Applications

Coach Donee - Fitness Platform

Live: <https://play.google.com/store/apps/details?id=com.multidevs.coach&pli=1>

- Dual-interface mobile app for trainers and clients
- Location-based discovery with Google Maps integration
- Subscription management and real-time messaging
- **Stack:** React Native, Firebase, Google Cloud Platform

Swank.pk - Salon Booking Platform

Live: <https://swank.pk>

- Two-sided platform connecting customers with salons/barbers
- Real-time appointment booking and management
- Admin dashboard for business operations

Giveaway Games - Steam Integration

Live: <https://giveaway.games>

- Steam game giveaway platform with player analytics
- Steam Web API integration for data collection
- Admin portal with comprehensive player statistics

Belden Games - Investment Quiz System

Live: <https://beldengames.com>

- Interactive investment knowledge assessment
- Lead generation with Google Sheets integration
- Conversion-optimized responsive design

Enterprise Solutions

Radium Ebook System - DRM Implementation

- Complete ebook ecosystem with Radium LCP DRM technology
- Publisher portal with custom encryption server
- Cross-platform reader with license verification
- **Stack:** Go, Radium LCP, PostgreSQL, Google Cloud VM

MultiDevs Company Website

Live: <https://multidevs.com>

- Interactive agency website with custom animations
- Animated career portal with assessment system
- Portfolio integration and project showcases

E-commerce & CMS Projects

UKF Furniture

Live: <https://ukffurniture.com>

- Complete e-commerce platform for UK furniture company
- Custom CMS and inventory management
- **Stack:** PHP, Laravel, MySQL

Seven Saints Jewelry

Live: <https://sevensaintsjewelry.com>

- Online jewelry store with custom features
- Payment integration and order management

Open Source Contributions

Vercel AI SDK

Repository: <https://github.com/hariskamran/ai>

- Contributions to Vercel's AI SDK framework
- Enhancements for LLM integrations

Arrow MultiDevs

Repository: <https://github.com/arrow-multidevs>

- Open source development tools and utilities

Additional Repositories

- **Chatbot Dashboard:**
<https://github.com/adminmeisterynet/meistery-chatbot-backend-v2>

-
- **Appointment Booking:**
<https://github.com/hariskamran/appointmentBooking>

Education

B.Sc. Computer Science

Capital University of Science and Technology (2017-2022)

FSc. Pre-Engineering

Punjab Group of Colleges (2015-2017)

Matriculation - Sciences

502 Model College (2013-2015)

Certifications & Awards

Microsoft Imagine Cup Pakistan National Finalist (2022)

- Won Regional Competition and participated in National Finals
- Recognition for innovative technology solution

Programming Competitions

- **ICPC Programming Competition (2020)**
- **Kangaroo Linguistic Competition (2017)**

Industries & Domains

Specialized Sectors

- **FinTech & Web3:** DeFi protocols, token development, liquidity pools
- **AI & Machine Learning:** Chatbots, NLP, LLM integration, automation
- **Healthcare:** Appointment systems, patient management
- **Transportation:** Cab services, real-time tracking, fleet management
- **E-commerce:** Online stores, payment systems, inventory management
- **Gaming:** Web3 gaming, identity systems, profile management
- **Fitness & Wellness:** Trainer platforms, booking systems
- **Legal Tech:** Legal assistants, document processing

Key Achievements

Technical Leadership

- Successfully led development teams across multiple time zones
- Architected and deployed 20+ production applications
- Implemented AI systems serving thousands of users daily
- Built Web3 applications with custom smart contracts

Business Impact

- Delivered projects ahead of schedule with pixel-perfect accuracy
- Reduced operational costs through automation solutions
- Increased user engagement through innovative UI/UX implementations
- Generated leads and revenue through conversion-optimized platforms

Innovation

- Pioneered AI-calling infrastructure solutions
- Developed novel DRM implementations for digital content
- Created embeddable widget systems for cross-platform deployment
- Built agentic AI interfaces for Web3 trading platforms
